# The dino children nursing care bed from bock

Comfortable,  
safe and accessible

The innovative dino nursing care bed (90 x 170 cm) from bock is perfectly tailored to the needs of children requiring care. Young people can receive optimal care with the dino bed – either in their own home or in paediatric rehabilitation centres. With its warm wood tone and transparent acrylic glass elements, the visually appealing bed offers children cosiness as well as accessibility and optimal safety.

Effective prophylaxis against the consequences of falls:  
The low bed position gives little ones the safety they need  
when sleeping or playing.

*The dino nursing care bed is designed  
for children in need of care with a  
height of less than or equal to 155 cm.  
The weight of the person must not  
exceed 135 kg.*

# The dino adolescent nursing care bed from bock

Safe, age-friendly  
comfort

The innovative dino nursing care bed (90 x 200 cm) from bock offers the best possible support and safety in everyday adolescent care. Young people can receive optimal care either in their own home or in rehabilitation centres with the dino adolescent nursing care bed. The robust and homely bed offers high standards of safety, plus complete freedom thanks to folding doors and a low position.

Effective prophylaxis against the consequences of falls:  
The low bed position offers young people the greatest possible freedom and safety.

*The dino adolescent nursing care bed is designed for young people in need of care with a height of less than or equal to 185 cm. The weight of the person must not exceed 135 kg.*

# The dino child and adolescent nursing care beds: the advantages at a glance

# Ergonomically optimised: the lying surface

With its lying surface, the dino nursing care beds fulfil a clearly defined quality requirement: comfortable and ergonomically optimised lying comfort.

- ⊕ The 4-section lying surface offers an ergonomic backrest and a mattress compensation, both ensure a comfortable and physiologically sensible sitting position and reduce pressure peaks.
- ⊕ A variety of sitting and lying positions offer more individual lying comfort
- ⊕ Various adjustment possibilities such as Trendelenburg, Anti-Trendelenburg and comfort sitting position can be selected with one button
- ⊕ The modern lying surface with aluminium bars allows a quick and individual pressure relief thanks to the individually removable bars. The stable bars can be easily removed, cleaned and reinstalled.
